**For Immediate Release**

**E-ONE Receives 30-Unit Order for Royal Saudi Air Force**

Ocala, FL (December 9, 2009) – Through its Saudi Arabian dealer, SESE, E-ONE was awarded a multimillion-dollar contract for 30 Aircraft Rescue and Fire Fighting (ARFF) and first responder units from the Royal Saudi Air Force (RSAF).

A long-time SESE and E-ONE customer, RSAF ordered a variety of units including Titan Force 6x6's, custom pumpers on CII chassis, mini pumpers and small rescue vehicles.

"The product diversity of the 30-unit order demonstrates the effectiveness of E-ONE and our International dealers to reach and support global markets," said Sam Itani, Vice President of Global Sales E-ONE. "We would like to congratulate SESE for this significant contract and commend them on their ability to continuously support the sales and service needs of Saudi Arabia."

SESE has been the E-ONE dealer in Saudi Arabia for more than 20 years and prides itself on maintaining strong relationships with all its customers.

"We are honored RSAF has trusted in us, yet again, for their ARFF, first responder and loose equipment needs," Mohammad Fostoc with SESE said. "E-ONE's diverse, full line of products allows us to meet our Saudi Arabian customers' varying demands with a product known internationally for its quality and performance."

The units ordered offer the latest in ARFF and first responder technology with the state-of-the-art Titan Force 6x6 featuring a 3000 gallon tank capacity and custom 4x4 pumpers on CII chassis with a 1030 gallon tank capacity. The new, technologically advanced units will be a welcome addition to RSAF's existing E-ONE fleet.

"RSAF currently has more than 20 E-ONE units in operation and we are honored they have chosen E-ONE and SESE to expand this growing fleet," Itani said.
