

### Business Investment

For companies within targeted industries, the City of Ocala can provide customized assistance to or on behalf of a company where a positive return on investment to the City and community can be determined.

The City's investment decisions are typically based on a company's capital investment, utility consumption, and job creation which help to increase the tax base and improve the community's financial strength.

If you are interested in finding out more about what Ocala has to offer please contact the Ocala-Marion County Economic Development Corporation at (352) 291-4410.

### Partnership

*Economic development in Ocala is achieved through a partnership of local, state, and federal organizations working in concert with business enterprise to stimulate job creation.*
